To all customers

Subject: Change of production site and product name of standard grease

Dear Sir:

We are pleased to learn of your continued success and wish to express our sincere gratitude for your ongoing support.

We have received notice from the grease manufacturer that the production site and name of certain greases used in IKO products will be changed.

Accordingly, we will replace the current grease used in the products supplied to your company with the new grease. Please note that there is no difference in properties between the old and new greases. For detailed information on the new grease, please contact our sales representative.

- Changeover date

From July 2025

We will proceed with switching greases as soon as the current greases are out of stock.

- Applicable greases and our applicable products

Our standard products and special products are applicable.

Sincerely yours,

NIPPON THOMPSON CO., LTD.
